******* Assignment –2 *******

Introducing Relational Databases.

1) Which field of the Customers table is the primary key?

ANS:-'Cnum' is the primary key of Customers table.

2) What is the 4th column of the Customers table?

ANS:-Rating

3) What is another word for row? For column?

Ans:-Another word for row =Tuple,Entity,opportunity.

Another word for column=Attribute,Method.

4) Why isn't it possible to see the first five rows of a table?

ANS:-No its not possible because in RDBMS row is stored where ever memory is available

and hence while retriving rows are displayed as per their address in ascending order.
